

# RES-Q™

## Alk-Clean (Heavy-Duty Degreaser, Concentrate and RTU):

High-alkaline (pH 13-14), non-butyl heavy duty degreaser and multi-surface remediator. Our most aggressive cleaner/degreaser. Most effective on heavy smoke and soot. Removes wax, grease, carbon, soot, diesel smoke, gum, resin, oil, dye, scum, grass stains, ink, etc.

## Astri-Clean (Concentrate):

Certified EPA Safer Choice product. Astringent-fortified descaler with acid-replacement technology. Removes lime, organic encrustations, oxidation, hard water spots, dirt, soap scum, mineral deposits, mildew, uric acid, scale, and rust stains. Non-corrosive and odorless.

## Disinfectant (Concentrate):

One Step EPA registered disinfectant, cleaner, mildewstat, fungicide, virucide, and deodorizer. Hospital grade.

## Enz-Clean (RTU):

Bioenzymatic, odor-neutralizing, stain-digesting multi-surface remediator. Removes soils and odors from all washable surfaces...hard and soft. Breaks down protein-based soils such as organic matter, oil, grease, urine salts, fecal matter. Excellent at eliminating odors from decaying organic matter, rotting flesh or food, animal and human waste, black water, and burned matter. Necessary for trauma cleanup.

## Natural Clean (Light-Duty Degreaser, Concentrate):

Certified EPA Safer Choice product. Mildly alkaline (pH 9.5-10.5), degreaser, detergent, and multi-surface remediator with antioxidants. Lighter duty general purpose cleaner/degreaser. Effective on industrial and organic soils. Removes carbon, soot, grass stains, ink, mildew stains, etc.

## Perox-Clean (Neutral Degreaser, Concentrate and RTU):

Certified EPA Safer Choice product. Oxygen-fortified, neutral degreaser, and multi-surface remediator. Perfect tool for use in mold and trauma clean-up.

## Solve-Clean (Concentrate and RTU):

Certified EPA Safer Choice product. EcoSolvent-fortified, fast-drying glass, granite, and multi-surface remediator. Cleans carbon/organic soils from smooth, polished surfaces. Removes oil and non-oil based soils and leaves a streak-free finish.

## SonicSmoke 13.5:

Heavy-duty ultra-sonic solution. pH of 13.5 in concentrated form; pH of 12.5 upon proper dilution. Removes smoke, soot, oil, grease, carbon, organic debris, and other soils from contents damaged in a fire loss. When diluted properly, this cleaner is safe to use on glass, metal, fiberglass, plastic, tile, vinyl, chrome, aluminum, porcelain, ceramic, enamel, marble rubber, plastic, and other materials that can be cleaned in water.

## SonicSoft 10.0:

Universal ultra-sonic solution. pH of 10.0 in concentrated form; pH of 9.0 upon proper dilution. Removes water spots, deposits, films, dust, oil, grease, carbon, organic debris, blood, and other soils from contents damaged in a water loss or fire loss. When diluted properly, this cleaner is safe on glass, metal, fiberglass, plastic, rubber, tile, vinyl, chrome, aluminum, porcelain, ceramic, enamel, marble, copper, stainless steel, painted surfaces, and other materials that can be cleaned with water.

## Soot-Gone (RTU):

Citrus-fortified, smoke and soot extracting, wood and porous surface remediator. Cleans, deodorizes, polishes, and conditions wood finishes exposed to smoke and/or water residue. Wood cream restorer.

## SRC-27 (Concentrate):

Contains 27% Hydrogen Peroxide. Surface Remediation Cleaner. Bleach-Free, Non-Chlorine Formulation. Excellent for mold, water/sewer loss. Penetrates porous surfaces to remove mildew stains, water stains, odors, and other organic residues.

## REVIVE™

### Final Rinse (Concentrate):

Alkali-neutralizing, post-cleaning treatment for fabric, upholstery, rugs, and carpet to remove aggressive alkali residues. Prevents yellowing and brown-out. Treated surfaces feel softer and resist resoiling.

### Spotter & Extractor (Concentrate):

Neutral pH 7.5 polymer-fortified, fabric, upholstery, rug, and carpet remediator.

## REALIZE™

### Fresh - Odor Encapsulant (Concentrate):

Most effective on bitter scents like fire and smoke damage.

### Summer Breeze - Odor Encapsulant (Concentrate):

Most popular, most effective on widest variety of odors.

### Lavender - Odor Encapsulant (Concentrate):

Most effective on widest variety of odors, with the most pleasant fragrance.

### Linen - Odor Encapsulant (Concentrate):

Best on drapery, carpeting, rugs, and other soft, porous surfaces.

### Thyme - Odor Encapsulant (Concentrate):

Longest lasting, unique, natural, and best on wood, stone, and other natural materials.

## RENEW™

### Stage 0 Soot Removing Additive:

Powerful restoration laundry additive removes smoke and soot from fabric. Specially formulated to work with power washing systems but can also be used in traditional commercial washing machines.

### Stage 1 Enzyme Pre-Soak:

Neutralizes odors on contact. Breaks down protein-type soils, such as sweat, blood, urine, and other organic stains. Linen scented. Hooks up to Pump #1 on power washing systems.

### Stage 2 Detergent:

Laundry detergent with builder and booster. Suspends soils and guards against redeposition. Saponifies greases, oils, and organics. Removes and prevents calcium, lime, and scale deposits from machines and drain lines. Linen scented. Hooks up to Pump #2 on power washing systems.

### Stage 3 Sour & Optical Brightener:

Powerful laundry sour plus color-safe bleaching agents. Contains peroxyacetic acid and other oxygen-based bleaching agents. Neutralizes pH. Minimizes yellowing and graying of fabric. Removes rust, iron, mineral deposits, and hardness. Hooks up to Pump #3 on power washing systems.

### Stage 4 Softener & Odor Encapsulant<sup>1</sup>:

Lavender fragranced fabric softener removes static and imparts smooth, soft feel to all types of fabrics. Traps and neutralizes odors permanently. Safe on white and colored cottons, linens, and synthetic fibers. Reduces wrinkling and drying time. Hooks up to Pump #4 on power washing systems.

<sup>1</sup>Available in Fragrance-free, Lavender, & Linen
